Pearls are one of the oldest gemstones. The passion for pearls and the quest to satisfy it have never diminished over the centuries. They have been treasured, coveted, and adored. Today, JOIA DE MAJORCA makes them available to everyone. It is human ingenuity and bold vision that has enabled JOIA DE MAJORCA to create such beautiful jewelry and organic man-made pearls.

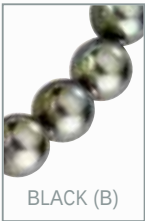

In the small town of Manacor on the Island of Majorca, Spain, each organic man-made pearl is carefully crafted with a skill that has become a rare art. Throughout the entire delicate process, meticulous attention is given to every detail to assure superior standards of quality and beauty. But it is through light that JOIA DE MAJORCA organic man-made pearls reveal their divine inner glow and unmatched luster and iridescence. The varying colors of white, gray, dove gray, bronze, aubergine, and peacock green, the rarest of them all, are harmoniously radiant. The result is a collection which bears witness to the subtlety of fine design with the timeless seductive lure of JOIA DE MAJORCA organic man-made pearls.

All jewelry in the JOIA de Majorca collection is identified using one of two methods: one, using specific sequence of numbers and letters to create a descriptive product number (most necklaces and bracelets), or two, utilizing an assigned product number (all other pieces). Please refer to the product number shown by the catalog item to know which identification method to use when writing an order.

Necklaces and Bracelets

All necklaces and bracelets are available in single strands of uniform-sized pearls unless specified as "Baroque." This style of pearl requires an additional designation of "Q" after the Basic Description letter of either "N" or "B". Baroque pearls are either barrel (BB) or circular (CB) in shape.

Writing & Using Core Description Style Numbers

The first digit identifies the number of rows of the item. Next, is a letter identifying it as a Necklace (N) or Bracelet (B). This is followed by the letter "Q" (Baroque), if applicable. Next comes pearl color, size of the pearls in millimeters (mm), clasp, length and, finally, the finish or plating. The abbreviations are shown at right.

Examples:

1NQG16E18S

describes a single strand (1) necklace (N) of circular baroque (Q) grey (G) 16mm (16) pearls, that uses a Euro clasp (E), is 18" in length (18), and has a sterling silver (S) plated finish.

If the order was for an 18" single strand necklace of grey, 16mm, uniform round pearls, the "Q" would be eliminated, and it would be written as "1NG16E18S".

1BG10E75S

indicates a single strand (1) bracelet (B) of grey (G) 10mm (10) pearls, with a Euro clasp and sterling silver (S) plated finish. All bracelet lengths are 7-1/2" (7.5), which is denoted as "75."

For a 10mm 7.5" uniform round gray pearl bracelet, the "Q" would be eliminated and the number would be "1BG10E75S".

In instances where style numbers have multiple size chains and different style pearls it will be indicated with () followed by the indicator.

The #'s indicate chain size.

Example:

70203SWS_3	Three Row Silk
70203SWS_5	Five Row Silk
70203SWS_7	Seven Row Silk

Different style pearls are indicated by a CB or BB.

70204SWS_CB	Circular Baroque
